Tiger Boards was conceived in August 2008 at Vidalia, Louisiana, because of a bar-b-que festival being judged by a friend, Finley Hootsell. Finley contacted Matt Avance to ask for unique cutting boards from the tiger striped Northern Maple that Matt uses to make custom muzzleloaders. Those 6 cutting boards became the beginning of the line, "Tiger Boards". These boards are available in other beautiful hardwoods, such as walnut, cherry, ash, and red oak. Not only are they beautiful, but also useful. We hope that whatever your choice they continue to bring you many years of enjoyment thru their beauty and usefulness.
